

New bus-only lane coming to NW Everett Street

This new bus only lane should be ready for use Monday, August 12, 2019.

The new Business Access and Transit (BAT) lane will replace one of the existing travel lanes on NW Everett and run six blocks from NW Broadway to the ramp up onto the Steel Bridge. The project will also close the ramp from southbound Naito to the Steel Bridge to reduce the number of merging conflicts and increase safety for vehicles crossing the bridge.
