Stand Together to support Amalgamated Transit Union Local 757 members at TriMet who are fighting for a fair contract! The working conditions of transit workers directly impacts the public who rely on TriMet everyday.

Join us to call on TriMet to keep the state certified maintenance apprenticeship programs so that workers have a pathway to a career while providing essential services to our communities. Workers are also demanding fair road relief pay, currently TriMet Operators are paid less than minimum wage for on-the-job commuting that can be up to two hours per shift!
